# THE COLEMAN JOURNAL

PUBLISHED IN THE PREMIER COAL MINING CENTRE OF THE CROW'S NEST PASS

The Most Effective Advertising Medium for reaching the People of Town and District. The Journal goes into the Homes.

Vol. 12 No. 8

COLEMAN, ALBERTA, THURSDAY, APRIL 6, 1933

\$2 per year, single copy 5c.

## Various Local Activities Engage Interests of Citizens League Members

At a meeting of the Citizens League carnival day committee held April 2, Chairman Gillespie stated that he had received a suggestion that the Empire Day concert of the school children be staged in the rink. This suggestion met with the approval of the committee, and it is expected this feature will prove of widespread interest to the people of Coleman.

### PRIZES FOR ST. ALBAN'S WHIST DRIVE EASTER MONDAY

Some very fine prizes have been donated for the whist drive and draw to be held on Easter Monday in the parish hall. Tickets for the electric bridge table have been heavily purchased. The whist prizes, which are on view in Rushton's store, are as follows: For ladies: 4-point blanket value \$7.00; casserole, value \$6.50; bedspread, value \$5.00. For gents: Kolls razor, value \$7.50; six months subscription to Calgary Herald, value \$4.00; set of military hair brushes value \$4.00. A door prize, a handsome hand-worked cushion, value \$5.00, will be awarded as a door prize to the holder of the lucky number of admission ticket.

The hall is being redecorated and will present an attractive appearance. A one-act play by Coleman Players will add to the interest of the program, and the evening will conclude with refreshments being served by the ladies of the church. As only sufficient tickets will be on sale to fill the hall, those intending to go should purchase early.

Thomas Hudz was the only applicant for naturalization to appear before Judge McDonald, of the district court, on Tuesday morning, in the council chamber. His application, he was advised, will receive consideration. He has resided in Canada for 20 years.

## ADVERTISING Is a Selling Force

The Wise Old Owl Says: The Best Way to Get Business is to Deserve it.

You must make efforts every day — just waiting for business to turn up is of no avail.

If your advertisement appears in The Journal every time it is published, people are impressed with the fact that you have something useful to sell to them.

Do not blame the people for passing you by if you make no effort to solicit their business.

THE SUCCESSFUL BUSINESS MAN KNOWS THAT ADVERTISING PAYS GOOD DIVIDENDS.

### UNITED CHURCH NOTES

Sunday, April 9, is Palm Sunday and at the morning worship the junior choir will render suitable music and the minister will preach on the topic, "Marching with King Jesus."

In the evening the anniversary of Vimy will be commemorated. The members of the Canadian Legion will attend the service in a body and will occupy the centre pews. The music at the evening service will be in keeping with the occasion. The church will be suitably decorated and a very cordial invitation is extended to veterans and their families to attend. Mr. Taylor will preach a special sermon entitled "Our Memorial Day."

Come and worship with us. You will be helped by these services, at 11 a.m. and 7 p.m.

## "Americans Come To Me".

George Bernard Shaw, whose pungent wit has enlivened the world's stage, arrived at San Francisco recently, denied he had ever said he would never visit America.

"What I said," the Irish dramatist remarked, "was there was no need for me to visit America, as all interesting Americans come to see me."

That this was true is proved by the picture, for here in the Mayfair lounge of the 42,500 ton liner, he is seen with Mayor Angelo Rossi, who not only went to Shaw, but dressed himself in his cutaway and wore a carnation.

### WINS MINING INSTITUTE PRIZE

Harry Gardner, formerly employed at International mine and later at Corbin Collieries Ltd., won a prize of \$25 and the gold medal awarded by the Canadian Institute of Mining and Metallurgy, for his paper, "Mining Methods of the Corbin Collieries Ltd." V. J. Southey, of the University of British Columbia, also received a similar award for a paper on "Underground Rock Drilling Efficiency."

Michel vs. Coleman basketball a double-header, junior and senior, in the opera house, Friday evening, April 7, at 8 o'clock sharp.

### CONVENTION IN EDMONTON

The annual convention of the Alberta Educational Association will be held this year in Edmonton, April 18, 19 and 20.

As the depression continues, the program this year makes a departure from the academic educational topics to the purely social aspect of education.

E. J. Garland, M.P., Bow Valley, and Ira Dilworth, M.A., Victoria, B. C. past president of the Canadian Teachers' Federation, will be the outside speakers.

## Editorial Comment Supports Beatty Consolidation Plan

Editorial opinion throughout Canada has been very largely in favor of the proposals advanced by E. W. Beatty, K.C., Chairman and President, Canadian Pacific Railway, looking toward the consolidation of the two railway systems under one management, as the only practical means of relieving the intolerable burden upon the Canadian taxpayers.

Beatty made his proposal in a recent speech before the Toronto Canadian Club, and the following paragraphs from leading editorials on the subject, clearly indicate the nation-wide scope of supporting public opinion.

A total of 47 daily newspapers commented up to January 29th, of which 32 were in favor of consolidation.

"This is far and away the most candid, constructive, and striking contribution to the discussion of our transportation problem that has yet been made." — Montreal Gazette.

"Drastic action appears to be essential. If the tremendous burden is to be lifted from the shoulders of our people." — Halifax Herald.

"It is essential with our small population that the railway mileage and service should not outrun the needs of the country." — Halifax Chronicle.

"Mr. Beatty's call for action is timely." — Saint John Telegraph-Journal.

"There is much that appeals in the suggestion of Mr. E. W. Beatty, K.C." — Hamilton Herald.

"We agree with the President of the Canadian Pacific Railway that the country must get down to bed rock." — Mail & Empire, Toronto.

"Mr. Beatty has offered a solution of the railway problem, definite steps to this end should not be delayed." — Border Cities Star, Windsor.

"The most constructive of all suggestions have emanated from Mr. Beatty." — Victoria Colonist.

"He urges the drastic remedies he deems necessary, regardless of every consideration, except the salvation of the two great railway systems and of the State." — Vancouver News.

"Mr. Beatty's carefully considered pronouncement compels serious thought, as to whether the unexplored perils of a monopoly are great enough to require that the Canadian public shall go on paying millions annually for the doubtful privilege of having separate systems." — Woodstock Sentinel-Review.

"It would be a muddle worse confounded if the Duff recommendations were to be adopted by Parliament." — Sherbrooke Daily Record.

"Mr. Beatty's view is obviously in accordance with the general movement as it is coming throughout the world." — Ottawa Citizen.

"What the country needs is a cool-headed solution of a tough problem. We can't afford to go on as we are doing. The one fact stands out, that the Duff Commission report was based on politics, while Mr. Beatty's arguments rest on the plain business requirements of the situation." — Saint John Star.

"Mr. Beatty has courageously made clear the issue between half-baked public ownership, and full private ownership and management, operating under the control of Parliament." — Moose Jaw Times.

"With no solution reached, Mr. Beatty's address should be read and digested. If there is to be consolidation there must either be a publicly owned system or a privately owned system. That is the issue. The Duff Commission did not settle it." — Lethbridge Herald.

"The more one studies the cold figures in the case and acquires a better understanding of the disastrous results financially in the operation of the C. N. R., the more inevitable becomes the conclusion that public ownership has proven disastrous." — Brantford Expositor.

"There appears to be no course open but a merger of the two great systems." — Galt Reporter.

"Mr. Beatty has shown great courage in his proposals." — The Financial Post.

"This merger seems to be the best of the only means of getting out of the dilemma into which we are thrust." — La Presse, Montreal.

"As put by the President of the Canadian Pacific Railway, the choice before Canada seems to be whether this country would be served by two insolvent railroads, or by one solvent road." — Toronto Telegram.

"It is significant that Mr. Beatty is interested primarily in bringing about amalgamation, secondly in the form this amalgamation should take." — Calgary Albertan.

"When the two systems are lumped into private or public ownership, and the budgets balanced, then that unified system can be put to work for Canada." — Vancouver Sun.

"E. W. Beatty, President of the C. P. R., states the way out of the mess is the amalgamation of our two lines under one management, and the Labor Leader is inclined to agree with him." — Labor Leader, Toronto.

"The newspapers in opposition to Mr. Beatty's proposals include: The Vancouver Province, Edmonton Bulletin, Toronto Globe, Toronto Star, Le Devoir, Montreal, Le Soleil, Quebec City, Montreal Daily Star, Victoria Times, Manitoba Free Press, Winnipeg Tribune, and the Edmonton Journal."

### THOMAS HIRST PASSES ON

Thomas Hirst, resident of Coleman for ten and a half years, died at his home in Graftontown on Friday, Mar. 31, aged 65 years. He was taken ill only three days previously, and though medical aid was summoned and did everything possible he passed away shortly after 10 a.m. on Friday.

Mr. Hirst came here in 1922 from Yorkshire, with his daughter, Mrs. T. Rose, and his son, J. Poxton. His wife and family followed 11 months later, and settled here. He was well known in town, and his passing came as a complete surprise.

Members of his family in Canada besides his wife, are his sons John William, Fred and Jesse; daughters Mrs. J. Poxton and Mrs. T. Rose, all living in Coleman. There is also a son, Thomas, living in Ontario, and one in England, George.

The funeral was held on April 3rd from the residence of Mr. and Mrs. J. Poxton, service being held in St. Alban's church, Rev. A. S. Partington officiating; burial in Coleman cemetery.

The pall-bearers were Walter Mathers, Stanley Mathers, Ralph Brown, A. Fry, John Coates, W. Gate.

### CARD OF THANKS

Mrs. T. Hirst and family wish to thank all who have been so kind in their bereavement, also Mr. McLean. Thanks also to those who loaned cars, and sent flowers.

Flowers were received from the following: Wife and family, Basil, Tom, Dick, Jean, John, Martha, Don, Mr. and Mrs. W. Andrews, Mr. and Mrs. P. Fleming, Mr. and Mrs. R. Hill, Mrs. A. Wilson, Mr. and Mrs. A. Phillips and family, Mr. and Mrs. T. Goldring and family.

### St. Alban's Church Notes

Next Sunday is Palm Sunday, the next before Easter. The services will be: 11:15 a.m.; Holy Communion; 12:30 p.m.; Sunday School.

On Friday evening and address at 8 p.m. Next week being Holy Week, there will be the usual three hour meditation on Good Friday commencing at 12 o'clock noon, "The Seven Words from the Cross." Mrs. E. E. Cranston, Bellevue, will sing the solo "O Lord Correct Me," by G. J. Handel. Everyone will be cordially welcome at this and all services.

## Local Happenings Briefly Recorded—Coke Ovens Very Warm Spot

### FOUND A WARM SPOT

Mike Petros will remember April 1, not because it was All Fools Day though he may at first have imagined somebody was playing a game on him. He "blew in" from down the line during the night of Friday, and the glare and warmth of the coke ovens alongside the track attracted him. About 8 a.m. Saturday morning when all the world seemed bright and fair, he was discovered by some of the working crew with his clothes on fire. They extinguished the blaze and he was removed to the hospital. He had three bottles of Concord port. Probably this, combined with the heat of the ovens, overpowered his sense of danger, but he sustained some nasty burns. When seen in hospital he was moaning his thanks that he was being well taken care of.

### 14 DAYS IN JAIL FOR BOX OF SAUSAGES

A six-pound carton of sausages proved a temptation too strong to resist, when seen by a man residing in East Coleman. Goods were being transferred from the freight shed to the dray of a local store, and seizing the opportune moment while the drayman was away and the station agent had gone inside for a minute, the sausages were lifted. On coming out Assistant Agent Brown missed the package, and spied the culprit walking down the track. By quick work he was intercepted and caught with the goods. Pleading guilty before Magistrate Gresham, he was sent to Lethbridge jail for fourteen days. Investigation of his domicile showed that he had some food there, and that though on previous occasions he had been given the opportunity to go to a relief camp for work, he had refused.

### THEFTS FROM BOX CARS

C. P. R. investigators in conjunction with the town and county police have during the past two weeks investigated robberies that have taken place from box cars.

Sport Shoes—new line—at Antrobus' Shoe Store.

## ADD TO HOME'S ATTRACTIONS BY PLANTING TREES AND SHRUBS THIS SPRING

WORLD HAPPENINGS  
BRIEFLY TOLD

The famous international horse show in London, has been abandoned for this year.

A record, probably without parallel in the Dominion, is one held by Guelph, Ontario, where not a single motor fatality occurred within the city limits during 1932.

Employing 45 men, camp No. 3, owned by P. Bain, logging operator of Dewdney, B.C., has re-opened. The mill and camp, closed since November, will cut for export.

Alexander Sangster, who once homesteaded a quarter section of land, in what is now the heart of Winnipeg, is dead at New Westminster, B.C., aged 80.

W. A. Crawford-Ross of Nanton, Alberta, was re-elected president of the Alberta Hereford Breeders' Association at the annual meeting in association at the annual meeting at Calgary.

Major W. H. Gladstone Murray, M.C., prominent official of the British Broadcasting Company, has arrived in Ottawa to begin his temporary duties as advisor to the Canadian Radio Broadcasting Commission.

Construction of a \$75,000 oil refinery in Calgary is planned by Federated Oil Consumers, Ltd., Harold J. Mainwaring, chairman of the company's board of trustees states. The plant's capacity would be 250 barrels a day.

Alberta's legislature has adopted a motion presented by Premier J. E. Brownlee, urging the Dominion Government to call as soon as possible a conference to discuss changes in the British North American Act.

England will probably not be represented at the Canadian Biscuit Connaught, regatta, Ottawa, this August. Lord Cottlesloe, president of the National Rifle Association, was "afraid financial conditions would prevent" the sending of an English team.

## Statement Is Denied

Stefansson Says Eyes Do Not Change Color During Arctic Night

Brown eyes do not turn blue during the long nights of the polar region, according to Dr. Vilhjalmur Stefansson, noted Arctic explorer. Science Service quotes him as stating, in a communication to the editor of Science, that statement made in another magazine that "after a prolonged absence of sunlight, men on polar expedition find that their eyes, irrespective of previous color, have turned blue."

Dr. Stefansson, in all his long experience in the lands of long nights could not recall having observed this phenomenon. The statement was alleged to have been inspired by an entry in the journal of Captain Scott, British explorer who perished after having reached the South Pole. Inquiries addressed to Captain Scott's companions and collaborators not only failed to bring confirmation of this report but brought forth statements to the opposite effect. Dark-eyed men see the sun return at the end of a polar night with eyes that are still dark.

## Halifax Had Freak Winter

Lowest Temperature Recorded Was Seven Degrees Above Zero

Yachting on the harbor was not the only unusual incident of this freak winter in Halifax. For the first time since weather records were first begun in the city, about 60 years ago, the mercury failed to drop to zero during the months of December, January and February.

Mean temperature during February was 29.3 degrees, or nearly six degrees higher than the mean mark of 23.69 established during the last 29 years, according to figures compiled by Frederick E. Roman Dominion meteorologist here.

The coldest day of the winter was Feb. 11, when the temperature was seven degrees above zero.

Absence of snow was another unusual feature of the winter. For instance, the total of snow and rain combined in February was 5.31 inches. During the same month last year the total was 17 inches.

## U.S. Leads in Apple Production

Apple orchards of the world are estimated at 7,146,000 acres, with a yearly production of 550,000,000 bushels. Canada supplies only 2.4 per cent. of the total, the United States being in the lead with 35 per cent.

Sassafras trees have three distinct leaf forms and all three may often be found on the same twig.

W. N. U. 1938

## Expensive Economy

Skiing on Advertising Has Always Been Poor Business

Henry C. Lytton, a veteran Chicago merchant, is quoted as observing that 1933 is of all years a year in which business men should make full use of advertising. And he speaks of what he knows.

Forty six years ago Mr. Lytton launched his business. He had, as he points out, just \$12,000 capital, but he did not hesitate to spend between \$3,500 and \$4,000 of it on newspaper advertising before he even opened his doors.

His business recently was valued at approximately \$7,000,000.

As a testimonial to the work that a wise advertising program can do for a business his experience speaks volumes. Skiing on the advertising appropriation can be false economy of the most expensive kind.

## Japan Buys Canadian Nickel

To Be Used In Mining New Small Coshage

The finance ministry recently bought from the International Nickel Company of Canada several hundred tons of nickel for the purpose of minting new small coinage to replace the present five and ten-cent pieces of nickel and copper alloy. The sum is 1-100 of the yen, which is equivalent to about 22 cents.

Officials of the finance and war ministries denied any knowledge of a plan to convert the present coins into bullets.

By Ruth Rogers

SMART! ISN'T IT! WITH MANY POINTS TO AID THE HEAVIER FIGURE

You won't go wrong to choose this jacket dress for your Spring wardrobe. It is a Paris favourite. The jacket has the most interesting sleeve treatment. It is the youthful "boxy" type. And isn't the dress just adorable? The cross-over bodice is slenderizing. And it has a trim inset vest. The pannelled cut skirt will make you appear tall and slender. The scalloped seaming has the effect of diminishing hip bulk.

The original model was the prettiest rosy-beige sheer rough woolen, with beige and brown checked woolen. The vest was white pique.

It's an opportunity to have a stunning, wearable suit at a minimum cost.

Style No. 579 is designed in sizes 16, 18, 20 years, 36, 38, 40, 42 and 44 inches bust.

Size 36 requires 4 1/2 yards 39-inch, with 1 1/2 yards 39-inch contrasting. Price of pattern 20 cents. Stamps or coin (coin is preferred). Wrap coin carefully.

## TO TOUR CANADA

R. W. V. Robins, famous Middlesex spin bowler, who will be a member of the English cricket team which will tour Canada, the United States and the West Indies this year.

## Broadcasting Not New

Had Its Origin In Halifax Over Thirty Years Ago

If you think broadcasting is something new, read this from the Halifax Herald: "Broadcasting, considered new within the last few years, had its origin in Halifax more than 30 years ago, when the unusual experiment was made in the old academy of music. The Baker Opera Company was playing there. Creighton Mitchell, now of Wolfville, then an employee of the Nova Scotia Telephone Company, rigged a large funnel over the stage, placed a telephone microphone in the mouth of the funnel, and carried the program over telephone wires to the telephone company's building, where it was enjoyed by all the staff."

## Managing a Crowd

England's Police Know How To Quell Disorder Without Violence

Over in England as we have repeatedly pointed out the policeman carries no fire-arms, but only the policeman's baton. Yet when a great crowd of over a hundred thousand assembled in London, and there was disorder and some violence, it was reduced to order and not a shot was fired and not a man was killed. There were no machine-guns, there was no parade of revolvers, there was no saving of shot-guns, and nobody's blood lay at any man's door. England can still show us something in the management of crowds and in the care of human life. Halifax Chronicle.

## Much Gold Hoarded

More than \$1,000,000,000 in gold has been hoarded throughout the world in the last eighteen months, League gold experts estimated. Every month, League statisticians report, several million more dollars in gold has disappeared from world circulation. The hoarding movement started late in 1931, soon after England went off the gold standard.

Some people recommend brandy for seasickness, but the surest cure is port.

Sweden has increased its appropriation for the electrification of State Railways.

## BRITAIN'S ABSENT-MINDED PASSENGERS

It is hard to believe, but these umbrellas are just a few of the vast number of articles left by forgetful travellers in the Mother Country in trains and stations. These unclaimed articles, ranging from smoking pipes to spades in half-dozens lots, are sold at regular periods by the British railway companies.

## Makes Dramatic Story

American Money Helped King Of Greece To Escape

Ex-King George of Greece has the upright carriage, the high, bold forehead, and the unaffected bearing of his father, the late King Constantine. Although not well off, he probably prefers his present mode of life to the disturbed existence which ended in his banishment nearly 11 years ago. He reigned for only 15 months, and during that time tension between Greece and Italy was at its height. It was broken by Mussolini's famous bombardment of Corfu, which resulted in the proclamation of a republic. How the King and Queen escaped from the royal palace on that occasion makes a dramatic story. Some months previously Mrs. Gary, wife of Judge Gary, the American millionaire, was entertained by the Queen in the hot season, and was surprised to find the palace swarming with flies. She proposed to send the Queen some anti-fly curtains from America, but finding it difficult to get them through, sent a cheque for 5,000 dollars instead, so that the curtains could be bought in Europe. The money arrived the day before the revolution, and it was only by its aid that the King and Queen were able to bribe their way out of the country.

## Recipes For This Week

(By Betty Barclay)

## CHOCOLATE JUNKET WITH CHOPPED NUTS AND WHIPPED CREAM

4 tablespoons powder for orange junket.  
1 pint milk.  
1/2 cup whipping cream.  
1/4 cup sugar.  
Chopped walnuts.  
Green maraschino cherries.

Make chocolate junket according to directions on package. Chill in refrigerator. When ready to serve, whip cream and add sugar, mixing well. Place on dishes of junket, and sprinkle chopped nuts over it. A green maraschino cherry adds color to the topping.

## CAROLINE FRITTERS

To three-fourths cup canned corn, add one-half cup milk, two well-beaten eggs, and one-half tablespoon sugar. Mix thoroughly. Mix one scant cup flour, one tablespoon baking powder and one-half teaspoon salt. Sift and combine with the other mixture. Place buttered muffin rings in a buttered dripping pan. Drop the combined mixtures into the rings, and bake in a moderate oven.

## Left Large Estate

Field Marshal Sir William Robertson, who died Feb. 12, left an estate of £49,000, about \$200,000 at present rate of exchange. Noted in the list of bequests were gifts of all his awards and medals and decorations to his son for life. On his son's death these are to follow the baronetcy.

## Canadian Farm Poultry

The total value of all descriptions of farm poultry in Canada in 1932 is officially estimated at \$34,738,000 as compared with \$43,138,000 in the previous year.

## SUNDAY SCHOOL LESSON

APRIL 9

## JESUS REQUIRES CONFESSION AND LOYALTY

Golden Text: "If any man would come after Me, let him deny himself, and take up his cross, and follow me."—Mark 8:34.

Lesson: Mark 8:31-9:1

Devotional Reading: Romans 8:31-39.

## Explanations and Comments

Cross-bearing the Duty Of All, verses 34-38.—"The Twelve had passed to regard Him as the Messiah; it was as much as they ever could learn till the further lesson was brought home to them in practical form by the cross. There was no more need for privacy; Jesus could start on that last journey to Jerusalem which was to end on Calvary. The first sign of this is the deliberate change in His method of teaching, when the great confession was made. In the next sentences He is at least within call of His disciples' approval, when the great confession was made. In the next sentences He is about to go to Jerusalem, and is making a public proclamation of the condition on which He is prepared to accept recruits. In these verses Jesus lays down the simple rules which form the basis of all His ethics. In fact, there may be said to be only one rule—that of self-denial."—Theodore H. Robinson.

"If any man would come after Me, let him deny himself, and take up his cross, and follow Me." Denying oneself does not mean the giving up of this or that, but the giving up of the yielding of one's will to Christ's will.

For whoever would save his life shall lose it; this sounds paradoxical, until we stop to consider that Jesus is speaking of the saving of his life, the higher life and the lower life. He who would save his higher life of the spirit must deny his lower life. Whoever shall lose his lower life for My sake and the gospel's shall save his higher life. The saying has been paraphrased thus: "Whoever shall make his first business to save or preserve his natural life and worldly well-being, shall lose the higher life, the life indeed; and whoever is willing to lose his natural life for My sake, shall find the true eternal life."

## Wins U.S. Science Prize

Young Canadian Awarded \$1,000 By American Chemical Society

Frank H. Spedding, Ph.D., a 30-year-old scientist, and a native of Hamilton, Ont., who has fashioned a new method of seeing into the invisible structure of solid matter, has been awarded the youthful genius prize of \$1,000 by the American Chemical Society.

Dr. Spedding uses the light which can be reflected or otherwise emitted by solids, such as rocks and minerals, to reveal what scientists call the "lattice" structure. This lattice is the spacing of atoms in the solid, including the spinning and other antics of these tiny particles. He reads the messages of these light beams after they have been passed through a spectroscopic, a glass prism which breaks them into the rainbow and records them on vertical lines on a photographic plate.

## Restrictions Attached

U.S. Secretary Of Treasury Barred From Working In Bank

When Ogden Y. Mills retires from the office of Secretary of the Treasury he will be free to work wherever he pleases except in a bank that is a member of the Federal Reserve System. The system includes all national banks and most of the state banks that might like to seek the services of a former Secretary of the Treasury; the Federal Reserve Act of 1913 provides that "the Secretary of the Treasury and the Comptroller of the Currency shall be ineligible during the time they are in office and for two years thereafter to hold any office, position or employment in any member bank. Appointive members of the Federal Reserve Board similarly are restricted unless they finish the term for which they are appointed."—Baltimore Sun.

## Would Be Welcomed

"Down with tipping!" is to be the slogan of an association of writers, artists and publishers being formed in Paris. The object of the association is to enforce the abolition of tips in all circumstances and to replace them by salaries paid by the employer or by percentages on the money taken by the employees.

Alberta's winter road clearance program now involves keeping 825 miles of main gravelled highway open for traffic.

Grain shipped through the port of Montreal in 1932 amounted to 112,883,703 bushels.

## Where Silence Is Needed

Noisiest Place Known Is Cabin Of Air Liner

Despite the great progress that has been made in aeroplane design, it has not yet been found possible to silence the noise of the engine. The cabin of an air liner is about the noisiest place in the world. It is impossible to hear oneself speak in an airliner, and the only thing to do is to write down what you want to say on the writing pads provided for the purpose. Again, the air traveller will find little boxes of cotton wool in the cabin and, if he is wise he will stuff his ears before the start of the journey and so protect himself from "engine deafness." The expert airmen who do silent flights—such as flying around the world—must, over a week, are sometimes unable to hear for several days after the conclusion of their great feat. To go to the other extreme, one of the quietest places in the world is in a sailing ship in the middle of a dead calm. The stillness can actually be felt, and sailors after being out and sing just to break the terribly oppressive silence.

## Prize Beef Sold

Brings Fifteen Cents a Pound At Calgary Stock Show

Grand champion of the baby beef show and grand champion fat beast sold under the auctioneer's hammer for 15 cents a pound at the opening here of the spring livestock show.

The grand champion baby beef, confined to junior breeders, was a Shorthorn steer owned by George Bigger, Calgary, weighing 630 pounds. Kendall Stock Farms, Kew, Alberta, won the grand championship for fat beast. It weighed 1,300 pounds.

Grand champion of the Shorthorn bulls was Gold Kay, U.S.A., owned by University of Alberta. Woodland Knight, owned by Roy Balhorn, Wetaskiwin, was judged grand champion of the Aberdeen-Angus bulls, and W. S. Domino 114th, owned by Frank Colquhoun and Sons, Crossfield, took the grand championship of Hereford bulls.

## Showing Priceless Relics

General Brock's Tunic Among Exhibits At McGill University

Priceless relics illustrating the important period in Canadian history, 1770-1870, are being shown at the McCord National Museum at McGill University in Montreal. The tunic of General Sir Isaac Brock and parts of the military attire of James McGill, founder of the university and at one time commander of the Montreal militia, are included in the exhibit.

First event illustrated in the 100 years' history is the American attempt on Quebec in 1775. Then follows the war of 1812, the rebellion of 1837, the burning of the parliament buildings at Montreal in 1847, and subsequent events leading up to Confederation.

## Brussels Plans Exhibition

Twelve Nations Have Already Decided To Take Part

Commemorating the creation of the Belgian Congo twenty years ago and the opening of the first Belgian railroad from Brussels to Malines, Brussels has decided to have an international colonial and industrial exposition this year with Prince Leopold as honorary president.

Twelve nations already have decided to participate in the exhibition, which will cover 400 acres of ground. They are Brazil, Chile, China, Egypt, Ethiopia, France, Morocco, Peru, Spain, Switzerland, Czechoslovakia, and Tunisia.

Development of transportation, electricity and kindred subjects with the colonial section next in importance are the main departments.

## Seeds From Many Countries

Vegetable seeds for Canadian gardens are brought from many different countries. Four tons of spinach seed came from Holland last year to a Toronto seed house. Lettuce, beet and carrot seed comes mostly from California. Denmark supplies cabbage and cauliflower seed.

## An Amazing Device

Marvelous apparatus has been devised by Mr. Joseph Gartlortner, operating with an eye-doctor of Vienna, by which a person completely blindfolded can read a newspaper three feet away. Sight is produced by electric energy stimulating the optic nerve.

## Cost Of Government

Limit Of Spending Seems To Have  
Been Reached

The country's business, what is left of it, is being destroyed by the inability of governments to reverse policies in the way that private business found it necessary to do long ago. Governments keep on spending, and what they spend is the money that should constitute the lifeblood of the country's business, which, lacking it, languishes and is threatened with complete extinction.

Governments have not yet even begun on a policy of retrenchment. If the governing body could be notified it had reached the limit of its revenue, it could easily find means of keeping within it. It is the feeling there is more money to be found which makes the difficulty. They are under pressure to spend money. Governments always are. So they spend, and more or less reluctantly impose more taxation to cover their spending.

They cannot go on indefinitely, and if governments today will consider the state of the nation's business they will see the limit has been reached. Approximately a third of the national income goes to cover costs of government, a share out of all proportion to the benefits the people derive from government. In a well ordered state government should certainly cost no more than a tenth part of the national income.

It is time Canada did some housecleaning in this matter.—Winnipeg Tribune.

## Musicians Play On Streets

Artists Forced To Make Living In That Way

They say that street music in London, England, has suddenly gone highbrow, the reason being that over fifty per cent. of the musicians of the country are out of employment. It is no uncommon thing, we are assured, to hear the violin and other instruments played beautifully on some of the quieter streets, the artists seeking to make their living in that way. The introduction of the talkies, and consequent going away with orchestras, has accentuated the problem growing out of the ordinary unemployment situation.—New Outlook, Toronto.

## On Flanders Fields

The twenty-six packets of seed of Canadian wild flowers sent last year by the Experimental Farm Branch, Dominion Department of Agriculture, to the War Graves Committee have been planted in Flanders and in other battlefields in France and Europe.

Trying Luck At Grain Show  
Mrs. Mary E. Maycock, of Milford, Prince Edward County, Ontario, the only woman who has ever won three championships in succession at the Chicago International Grain Show, has entered samples of beans for the World's Grain Show at Regina.

Isn't it funny that though it is the night that falls it is the day that breaks?

W. N. U. 1988

## Taxes His Dinner Guests

Highest Prince In World Gets Money  
In Many Ways

The richest prince in the world—the nizam of Hyderabad—writes Annie Quennell In The Alder Frele Press, Vienna has devised a regular system for wringing as much money as possible from his subjects and his income from various little "specialties" must reach a considerable figure. "And this is in addition to his governmental allowance of about 8,000,000 rupees a year.

What, for instance, can one say of a prince who regularly exacts from each of his official dinner guests a nazze or gift that varies with the rank of the guest? The lowest sum is a gold mohar (a little more than two pounds)—no small expenditure for an officer or government official, especially since these strange tax-laden receptions sometimes take place more than once a year. As the number of guests averages 500 this is no mean source of income.

But the nizam has other less public but equally lucrative business practices. He chooses to "honor" his friends and acquaintances by sending them boxes or baskets filled with fruit or candy, always with a little tag attached on which is marked the price to be paid for the "gift." The way in which these dainties are procured is not without interest. The nizam betakes himself to a bazaar, dressed in his usual somewhat negligent attire. He will enter a confectioner's shop, sample the wares and praise them whereupon the poor shopkeeper is obliged by the custom of the country to offer the Prince as a gift the goods he has praised.

Quick as a flash they disappear into the basket that the nizam has brought with him, only to be presented later, divided into small portions and prettily arranged to recipients who, of course, are delighted.

## Wheat and Empire Ports

Policy Regarding Imperial Preference  
Is Proving a Success

Canadian wheat is moving out faster this winter than at any time since 1929, following the big crop of 1928. And this year it is moving through Canadian ports. The figures so far show that the policy of extending the Imperial preference virtually only to wheat which passes through Empire ports is proving successful.

Figures compiled by the Port of New York authority tell the tale clearly. In January only some 108,000 bushels of grain were received at New York, as against over a million bushels in 1932—itsself not a heavy year. At the same time the visible supply of Canadian and American grain in the port has declined 64 per cent.

This shrinkage is certainly not due to lower Canadian exports but to diversion of Canadian wheat through Canadian ports, notably Saint John and Vancouver. In January of this year, Canada exported 16,500,000 bushels, the highest record for any January since 1929. December and February figures were proportionately high.

As long as our wheat moves at this rate, a strong prima-facie case is presented in support of those who insist that curtailing transshipment through the United States has not yet injured the Canadian wheat farmer.—Montreal Star.

## Honest Anyway

"Can't see why I should buy your book," said the farmer to the persistent canvasser.

"Why, it will show you how to be a better farmer,"

"Listen, son," said the elderly man impressively, "I'm not half as good a farmer now as I know how to be."

## Trinidad Becoming British

There was a time when it was part of Venezuela, another when it was inhabited by Caribs, another when it belonged to Spain, another when it was virtually belonged to France, and another when it was rapidly becoming Americanized. Now, happily, it is becoming more British every day.

## Only Half Right

"You dear old Henpeck. I saw you sewing a button on your coat yesterday."

"That is not true."

"I saw you."

"It is not true."

"But I saw you with my own eyes."

"It is not true—it was my wife's coat."

The underground tuber of the "old man of the earth," a dainty plant, weighs from 10 to 15 pounds.

Buildings erected in Oslo, Norway, last year were valued at double those constructed in 1931.

## FAT GIRLS OUT OF FASHION

Women of All Nations  
Slimming

All over the world Kruschen Salts is appealing to girls and women who are striving for an attractive free-from-fat figure.

Here is the method they are following to banish fat and bring into blossom all the natural attractiveness that they possess; every morning they take a half-teaspoonful of Kruschen Salts in a glass of warm water before breakfast.

They do this every morning—without missing one—for "it's the daily dose that takes off the fat." When Kruschen is taken daily, every particle of poisonous waste matter and harmful acids and gases are expelled from the system.

At the same time the stomach, liver, kidneys, and bowels are toned up and the pure, fresh blood containing Nature's six life-giving salts is carried to every organ, gland, nerve, and fibre of the body, and this is followed by "that Kruschen feeling" of energetic health and activity, reflected in bright eyes, clear skin, cheerful vivacity, and a charming figure.

## Named Famous Old Mansion

Sir John A. Macdonald Suggested  
"Earncliffe" To Former Owner

Sir John A. Macdonald named "Earncliffe," his famous old home in Ottawa, 14 years before he took up residence there, his daughter, Hon. Mary Macdonald, who recently died in Hove, England, revealed in letters to friends.

Sir John A. suggested "Earncliffe" as a name to Thomas Reynolds in 1870 when he dropped in to tea as the Reynolds family was talking over the matter. They had decided on "Eagles Cliff," but when Sir John pointed out that as "Earn" is Scotch for eagle, "Earncliffe" might be suitable, the family adopted his suggestion.

Fourteen years later the country's first premier bought the residence, spent the most memorable years of his career there, and looked his last on life through its broad windows.

Built in 1870 by Hon. Thomas McKay, who also erected Rideau Hall, residence of the Governor-General, which stands a short distance away, "Earncliffe" has had several owners besides the Conservative chief. A year or so ago it was bought by the British Government as the official residence of its high commissioner, and now is occupied by Sir William and Lady Clarke.

## Bell Over Century Old

Cast In 1819 Is Now Used In Nova  
Scotia Church

Sydney's oldest church bell has had another chapter written into its interesting history. The bell, which sounded for years from the belfry of St. George's Anglican church, where garrisoned English troops attended, now calls worshippers to service in Christ Church.

While its origin has been shrouded in the mists of more than a century, tradition has it that the old bell once tolled the hours on board a French privateer. When the ship fell into the hands of the British, it is supposed to have been taken to Sydney and installed in St. George's where its chiming rang out to the soldiers of the garrison until their withdrawal from Cape Breton.

When Rev. C. K. Whalley assumed charge of St. George's the bell was moved in 1920 to St. Cyriaque's Mission at Whitney Pier. Some years ago, this church burned down and the bell, rescued from the flames, has since remained unused. Despite its age—and inscription on the metal shows it was cast in 1819—its tone is still clear and vibrant as on the day it came out of the mold.

## Strong On Pensions

The inhabitants of Stockley, England, boast that more than one-third of their number receive the old age pension. Of a population of 60, only 18 are children, while 25 are between 70 and 80.

Prague, Czech-Slovakia, will hold its thirteenth agricultural show in May.

## HELP FOR TIRED WIVES

Take Lydia E. Pinkham's  
Vegetable Compound

Wives get tired during these hard times. They are tired, and they must have the burden of the family. When the husband comes home with less money in his pay envelope—when the wife must struggle along and make the best of things.

If you are tired, worn out, nervous, try Lydia E. Pinkham's Vegetable Compound. What you need is a tonic that will give you the strength to carry on. Out of every 100 women who are fond to say that they are benefited by this medicine, but a bottle from the nearest drug store today... and watch the results.

## Canadians Win King's Trophy

Boys Showed Highest Efficiency In  
Miniature Rifle Shooting

Canada has again won the King's trophy for miniature rifle shooting among the boys of the British Empire. Winnipeg and Calgary marksmen were among the outstanding Canadian competitors.

More than 41,000 boys competed for the trophy, which is awarded the country showing the highest efficiency in imperial shields competitions. Canada secured an average of 85 points, South Africa 82, Great Britain 72, New Zealand 68, and Australia and India failed to qualify.

Canada won 135 medals for individual scores and South Africa was next with 35. The Senior Imperial Challenge shield for small senior units was won by Deal Kent cadets, with Athens, Ontario, high school, Canada, second.

The Junior Jellie sword for large senior unit was won by Hamilton Collegiate, Canada, with the Cameron Highlanders cadets of Winnipeg, second.

The Junior Imperial shield for small units was won by the Woodridge, Ont., cadets, while the Earl Haig sword for large units was won by Calgary Hillhurst school, with the Quebec Commercial Academy second.

Canada entered 11,226 boys, South Africa 12,492, New Zealand 10,820, Great Britain 5,677. Thirty-eight Canadian units were in the honor list.

## THE RHYMING OPTIMIST

By Alice Michalson

### NONE CAN DOUBT

The world is so abrim with certainties On any sun-sweet, wind-washed April day,  
Life's tides so strongly rising in each tree,  
So surely pulsing through each robin's lay

That none can doubt the wisdom of the plan Which paints such beauty on a way-  
flower,  
And through unnumbered springs since time began Have given to countless birds song's lovely dower.

Oh, every tiny pattern that is traced In the most intricate precision planned,  
So deftly tinted, so exceedingly well,  
None can deny the whole vast scheme of nature's flower.

As perfect as the little part men see!

## Testing New Drug

"Harmol" Believed To Be Cure For  
Heart Disease

A drug which may prove to be a long-sought-for means of relieving sufferers from heart disease was referred to by Professor James Gunn, professor of pharmacology at Oxford University, at a meeting in London of the Pharmaceutical Society.

The name of the drug is "Harmol," and the professor said that the drug was now being tested to see if its effects on human beings were the same as on the animals with which he had experimented.

He explained that in angina pectoris the arteries of the heart spasm, and this gave rise to intense pain and frequently led to heart failure.

Thus the finding of a drug which, as this one promised, would cause the heart to dilate and increase the flow of blood through it would be very important. He said he had been searching for 25 years for such a drug.

## Using Their Common Sense

European Countries Not Likely To  
Rush Into War

An article by Willis J. Abbott in the Christian Science Monitor says: Europe does not materially differ from the rest of the civilized world. The forces of evil there are not so preme. Its people striving to attain complete recovery from the terrible burdens inflicted upon them by the last war, will not readily be plunged into a new, and this time suicidal, conflict.

The rivalry of high command may seem made for war, but the sober, intelligent, dominating common sense of the peoples will probably prevent their being rushed into another storm of rage and destruction over issues which concern them little, if at all.

## Everything All Right

A plump woman, about to step into her car in front of a Fifth Avenue store, dropped a handbag mirror which splintered mournfully on the ground. A look of superstitious terror came into the lady's face. This was observed by a man, and unemployed man who was slowly passing. "It don't mean a thing, lady," he said, and wandered on.

## HEADACHE

Here's Quick Relief:

Aspirin brings you immediate relief. It acts before you can feel any effect at all from the slow forms of relief.

Do not hesitate to take Aspirin tablets because of this speed. Their quick action is due to the fact they dissolve immediately. They are perfectly safe. They do not depress the heart.

That's the beauty of a remedy like Aspirin. Anyone can take it, as often as they need of its comfort. In

sufficient quantity to get complete relief. You could take Aspirin every day in the year without ill effects.

When you want relief from headaches, colds, neuralgia, or neuritis, periodic pains, etc., stick to Aspirin. You know what it will do, and you know what you are taking.

The new reduced price on bottles of 100 tablets leaves no reason for experimenting with any substitute for relieving pain. Insist on Aspirin.

## ASPIRIN

TRADE-MARK REG.

has SPEED!

## Another Cure Announced

Scientists Work Out Serum Treatment For Undulant Fever

Three research workers of the College of Medicine of the University of Cincinnati have announced the development of a serum that transforms the usually disabling undulant fever into something little more incapacitating than a night, common cold.

Undulant fever—Malaria fever, as it is known in Europe—ranks second only to tuberculosis in economic importance in its effect on livestock as well as on man.

The serum was developed by Dr. Alfred E. O'Neill, Dr. W. B. Wherry and Dr. Lee Foshay, like many others who have worked with the disease, Dr. O'Neill fell ill of it, but recovered to resume his work.

Undulant fever gets its name because the temperature of the sufferer rises and falls in defined and regular curves. Fever, pain and disability continue, often for years. The new serum, the three researchers say, cures in from three to four days.

In their research the three Cincinnati scientists found customary methods would not work; that vaccines made from the germs themselves were far too dangerous to inject into anyone. So they bubbled nitrous oxide gas through the liquid which nullified the poison, yet left the vaccine as effective as before.

The serum they make by injecting the vaccine into goats, drawing off blood and using the blood (if it is blood) and using the liquid that remains when the blood coagulates.

## Full Measure Blunder Twine

From the results of recent inspections of hinder twine by the Seed Branch of the Dominion Department of Agriculture it is evident that manufacturers are not seeking to take advantage of the tolerance of 5 per cent. allowed by the inspection and Sale Act in the length per pound guaranteed. Of 381 samples tested last year, 236 exceeded the length per pound guaranteed, and only 5 were short of the 5 per cent. limit of tolerance.

## Germans War On Muskrats

Herr Adam Roth, chief trapper for the Bavarian Government, has just completed a war against muskrats in that part of Germany, during which thousands of the pests were slain by an invention which he perfected recently. Muskrats did great damage there, but now Bavaria has few, if any.

Drilling for oil is to be attempted in the Harz Mountains of Germany.

The Prince of Wales is an expert on skates.

THURSDAY, APRIL 6, 1933

## NOTES AND COMMENTS

Official confirmation of the closing and dismantling of the Crow's Nest Pass Coal Co. mining property at Coal Creek, and its effect on the city of Fernie, has caused wide comment throughout the mining areas of the Alberta section of the bituminous coal fields.

The Great Northern Railroad, (mainstay of the British Columbia company with its headquarters at Fernie, and another large property at Michel) by its steadily decreasing use of coal during the past few years, has cast its shadow long before the actual closing down of Coal Creek was announced this week by the veteran president of the company, W. R. Wilson.

The companies on the Alberta side of the great divide, such as West Canadian Collieries, McGillivray Creek Coal & Coke Co. and the International Coal & Coke Co., all big producers with capacities combined of 11,000 tons per day, have suffered since 1928 from greatly reduced tonnage to the Canadian Pacific Railway and industrial concerns in Western Canada. In the past three years all have been working on short time, with a decrease each year in output, increasing the problems of unemployment and of continuing the mines in operation on a profitable basis.

They require additional tonnage in order to try and break even during 1933, as the past three years have been a severe strain on their resources. The Crow's Nest Pass Coal Co. up until the decline set in rapidly had always shipped out heavier tonnage than the Alberta mines, and even with its Michel plant alone operating, it will possibly make a very favorable comparison with the Alberta bituminous mines of the Crow's Nest Pass.

It has been rumored that efforts will probably be made to offset the loss of Great Northern coal business by making inroads on the business of the Alberta mines. Though Fernie's loss cannot be viewed without concern, yet the struggle which Alberta bituminous mines are experiencing would only be accentuated by a further decrease in their coal output, with increasing labor problems which would arise from additional unemployment.

The battle of competition from within Canada and from the United States to supply the Canadian market not only affects mining companies; it affects men employed in the industry, to the extent that intense competition can have but one effect, apart from losses to the companies, and that is a decrease in the wage scale which on the slack time now being worked does not bring mine workers more than a bare existence.

Canadian Pacific Railway officials, in reply to efforts made by Fernie interests to divert coal orders from Alberta mines, stated:

"Coal Creek mine was developed largely as a source of fuel supply for the Great Northern Railway and that railway for many years participated in the profits of the coal company. The present situation is the direct result of the withdrawal of Great Northern orders. Number of other mines were established in the district relying on the Canadian Pacific orders as the basis of operations. They have maintained a fuel supply for this company regularly for many years, including periods when their output might have been disposed of elsewhere to their advantage.

"Throughout depression their mines have been on short time and conditions in the towns and villages surrounding them are most distressing. To give orders now to Coal Creek would simply bring additional distress and suffering to their communities. Much as we regret the situation which is developing at Fernie, common justice requires us to maintain our orders with the mines which have been our long standing source of supply. Regret therefore cannot hold out any hope of additional orders for Coal Creek."

The feverish anxiety with which school pupils pore and work over examination papers is the subject of adverse comment by Burton P. Fowler. "How much do school marks matter?" is the subject of an article in The Parents' Magazine. He is president of the Progressive Education Association, and extracts of his article are printed in The Readers Digest. He says:—

"School marks should be abolished because they make children feel inferior (or superior), encourage dishonesty, give a feeling of insecurity, dull the edge of intellectual curiosity, make children course-passers instead of learners, and provide in general unworthy motives for hard work.

"In their place let us substitute really human records that reveal latent abilities, that encourage co-operation instead of competition, that make for good will among children and parents instead of jealousies, heartaches and futile, selfish strivings for unattainable goals."

The football field and the tennis courts are already being used. There is nothing like outdoor sport to develop good fellowship and also good health and physique. The more of it we have, the better we shall be.

## School Board Meeting

The regular meeting of the school trustees was held on April 4. Present—J. M. Allan, chairman; A. Reid, G. Hope.

Minutes of the previous meeting were adopted on motion of Reid and Hope.

Reports were received from the principal, the dentist, the attendance officer and the secretary covering their various duties. They were adopted.

In regard to tax penalties, the board will follow the same line of action as the town council, to accept taxes for 1932 up till April 30 without added penalty.

On motion of Hope and Reid the resolution whereby E. D. Batrum was appointed auditor was reconsidered, and the same motion re-appointed J. Emmerson, former auditor.

Authorization for an advertisement calling for tenders for school supplies was given.

Miss Yuill of Cameron school requested the use of the piano from Central school for the month of May. The request was granted, trustee Hope to arrange for transporting the piano.

On motion of Reid and Hope, Easter holidays will commence on April 13, and schools will re-open on April 24.

## St. Alban's Vestry Meet

A meeting of St. Alban's vestry was held on Tuesday evening, April 4, the following being present: Rev. A. S. Partington, Col. R. F. Barnes, Frank H. Graham, Walter Williams, H. T. Halliwell. Arrangements were completed for the christ drive and draw on Easter Monday, which it is anticipated will draw a capacity house.

Curlers Wind Up Season—  
Election of Officers

About 30 members of the curling club met in the council chamber on Saturday evening, April 1, for the presentation of the competition cups, played for during the season just closed. O. E. S. Whiteside, an enthusiastic club member, who has played every season since the club was organized, presented the trophies, which were filed by the winning skippers.

The McGillivray cup was won by J. Bell, skip; J. Yates S. Penny, A. Balloch.

Merchants' Cup—H. C. McBurney, skip; Fred Antrobus, Harold Reid, Arthur Reid.

Morrison Cup—W. L. Rippon, skip; E. Lehr, W. Hogan, Wilfrid Dutil.

Consolation Cup—Edw. Ledieu, skip; A. Destobel, A. Cornez, S. DeKley.

Officers appointed were J. A. McLeod, president; A. F. Short, vice president; T. Hokstad, J. S. D. Appollonia, E. Ledieu, J. Bell, W. Vincent, executive committee; W. L. Rippon, secretary treasurer. Mr. Rippon has faithfully filled the office of secretary for several years, and his services were acknowledged by a vote of thanks.

Miners Renew Doctor's  
Contract Agreement

At a meeting of Coleman Miners Association held on Sunday, April 2, the doctor's contract was up for consideration, the two-year period having expired. The executive were authorized to renew the agreement with Dr. Borden, who has held the contract since 1926.

## District Council Boy Scouts Association to Meet

A meeting will be held in Blairmore next Tuesday, April 11, to discuss arrangements for the district campsite and a cub master's course.

Reggie Jones has been very faithful in carrying on as Scoutmaster of Coleman troop during the winter.

## Nazi Boycott In Germany Puts Ban On All Jewish Trade

Berlin, Germany.—Germany experienced one of the quietest Sundays today on the heels of Saturday's Nazi boycott against the Jews. The boycott appeared likely to be the last organized affair of the sort, at least for the present.

The boycott committee has ordered the organization which carried out Saturday's movement to remain inactive preparatory to a resumption, but doubts were expressed that even its leaders harbored thoughts of resuming it unless untoward incidents occurred.

The committee further ordered that signs to be used in any subsequent demonstration be restricted to reading, "Jews."

Police at Rueland Sunday arrested 33 persons, claiming they were Socialists and Communists who were seeking to form their own unit of the Steel Helmet (war veterans) organization.

The Nazi boycott—the greatest organized anti-Semitic movement of modern times—paralyzed the commercial life of its victims. Reports from all parts of Germany indicated that the only serious outbreak was at Kiel. A Jewish attorney fatally wounded a Nazi leader and subsequently was himself slain in jail by unidentified men.

Brown-shirted Nazis with buckets of paint tramped through Berlin's business section Saturday, stopping at each shop run by a Jew and splashing across the show window a sign identifying the place.

At their heels followed holiday crowds. The day of the boycott, ordered by the National Socialist party against all Germany's Jews, coinciding with April fool's day and Hitler's birthday, brought more people downtown in the balmy sunny weather than had been seen for a long time.

Each time the brown shirts stopped to hang up a placard crowds clustered about them.

"That's right," they said; "freeze them out, then we'll take over their shops."

There had been no disorder anywhere up to the end of the afternoon.

Large numbers of persons at Handover, disregarding the boycott order, crowded Jewish stores until police forced off the business streets in the interest of public safety. At Recklinghausen Nazi authorities issued a shoot-on-sight order to prevent looting of boycotted stores.

Police at Stuttgart seized tons of Communist circulars, printed in German, supposedly sent from Russia, Switzerland and Austria.

Herr Goebbels, speaking this afternoon at a mass meeting in the Lustgarten, was cheered when he announced upon the attitude of world Jewry depicted a resumption of today's boycott.

### New Colors For Princess Pats

Montreal, Que.—New colors of the Princess Patricia's Canadian Light Infantry passed through Montreal last week en route from London to Winnipeg, where the headquarters of the famous regiment are located. The new colors represent the official standard of the regiment.

## British Ambassador At Moscow Called Home To Report

London, Eng.—Sir Edmund Ovey, ambassador at Moscow, has been called home to report in person on the arrest of six British subjects employed by the Metropolitan-Vickers Electrical Company, charged with sabotage by the Russian Government.

Newspapers which regard the incident as of considerable importance to relations between the two governments speculated on the possibility of a ban on Russian imports, cancellation of negotiations for a new trade treaty with Russia, and perhaps of a severance of diplomatic relations.

Sir John Simon, foreign secretary, was questioned in the House of Commons but declined to commit himself on the government's intentions.

The six men accused were: Alan Monkhouse, director in Moscow for Metropolitan-Vickers; Charles Nord-

### Guarding Airplane Wreck

Armed Police Protect Remains Of Imperial Airways' Plane

London, Eng.—Britain has been shocked by the air disaster which snuffed out the lives of 15 persons who were aboard the British Imperial Airways tri-motored plane, "City of Liverpool," when it crashed near Essen, Belgium.

A twisted mass of wreckage was still the custodian of 13 of the passengers who had met instant death as the great plane caught fire and fell to the earth like a spent rocket. Two more bodies were found in the vicinity but were mutilated beyond recognition. Two victims had evidently attempted to jump free of the plane.

Belgian air industry officials are expected to conduct investigations into the catastrophe. Meanwhile a cordon of armed police are on guard around the remains of the once proud "City of Liverpool" that was enroute from Cologne, Germany, to Croydon, England, via Brussels, Belgium.

London, Eng.—Officials of the Imperial Airways confessed themselves at a loss to explain the catastrophe involving the crash of their air liner, "City of Liverpool," in Belgium with the loss of 15 lives.

### British Musical Experts

Judges For Western Canada Musical Festival Reach Canada

Montreal, Que.—Three British musical experts, who will act as judges in the western Canada musical festival, passed through Montreal Friday en route to Winnipeg. They are George Dodds, conductor of the Newcastle and Gateshead Choral Union; Dr. Fred J. Stratton, of the Sheffield Choral Society; and York Bowen, a well-known English composer and pianist.

The party arrived in New York by the steamship "Olympic" Tuesday, March 28. They left Friday night, March 31, for the west on the "Continental Limited," and will visit Winnipeg, Calgary, Saskatoon, Regina and Moose Jaw. They will remain in Canada for two months.

### To Investigate Finances

Federal Government Has Sent Official To Western Provinces

Ottawa, Ont.—Before according to the requests of the western provinces for financial assistance the Bennett Government has decided to carry out an investigation into their affairs.

For this purpose, Watson Selinger, federal comptroller of the treasury and assistant deputy minister of finance, left Ottawa, March 28.

Secrecy is being observed with respect to his mission and it is somewhat uncertain if Mr. Selinger will go direct to Victoria and work east, or begin at Winnipeg and work west.

### Prison Population

Ottawa, Ont.—The penitentiary population of this country was about 5,000, Hon. Hugh Guthrie, minister of justice, told the House of Commons recently. The number last year was 4,164, the minister said, but the Doukhobors had increased this total.

### Resentment In Russia

Soviets Object To Attitude Of Britain In Sabotage Charges

Moscow, Russia.—Foreign Commissar Litvinoff has inferentially accused the United Kingdom of attempting "harsh diplomatic pressure" in connection with British subjects arrested in sabotage charges involving the operations of the British-Metropolitan Vickers Electrical Company, an official communique revealed.

The communique told of a call made by Sir Edmund Ovey, the British ambassador, at the foreign office yesterday "to acquaint the foreign minister with steps the British Government intends to take if the Soviet Government places on trial several British subjects charged with sabotage."

Mr. Litvinoff did not wait for the ambassador to explain the measures contemplated, the communique said. Instead he told the ambassador that the government's decision to try the case "cannot be changed, and if the British Government intends to influence this decision by informing us of its intended measures, then the ambassador may rest assured that nothing will come of it."

The foreign minister remarked that "matters such as attempted harsh diplomatic pressure from the outside might be successful in Mexico, but in the Union of the Soviet Socialist Republics they are doomed to failure."

Sir Edmund formerly served as Britain's diplomatic representative at Mexico City.

After the foreign minister had made his remarks, the communique said, "the ambassador did not insist on explaining the British measures." It is understood the action contemplated by the British Government consisted of an embargo against Soviet goods.

### Death Of Hon. Frank Oliver

Former Minister Of The Interior Passes At Ottawa

Ottawa, Ont.—Hon. Frank Oliver, former minister of the interior and former publisher of The Edmonton Bulletin, died in hospital here Friday night, March 31.

Death came suddenly for the veteran western pioneer. He was taken to hospital at 10:30 Friday morning. At noon it was realized his condition was serious, and he died at 6:30.

Mr. Oliver was 80 years old and until recently was active and frequently seen about Ottawa. His long and vigorous business and political career ended in 1923, when he was appointed a member of the board of railway commissioners. A few years ago he gave up his post as a member of the board but remained associated with it in charge of the grade separation fund.

### THE NATIONAL ENTRY WHICH SCORED

Here we see Kellebors' Jack clearing a jump at the National Hunt Club races a week before the Grand National at Aintree. Kellebors' Jack provided the surprise of the year by winning the coveted Grand National on a field of famous jumpers.

### ENVOY TO MEXICO

Joseph Daniels, war-time Secretary of the Navy under President Wilson, who has been nominated by President Roosevelt as U.S. Ambassador to Mexico. Nomination by the President is tantamount to appointment.

### British Officers Kidnapped

Chinese Pirates Seize Four Officers From British Ship

Newchang, Manchuria.—A group of armed Chinese buccanniers kidnapped four British officers from the British merchantman, "Nanchang," which was anchored at the Newchang bar.

The captain of the steamer pursued the pirates, frantically wirelessing in alarm, but the abductors escaped in their junks in the shallow water.

They had swarmed aboard the steamer from three junks, which opened up heavy fire as they drew alongside. British gunboats began an immediate search for the pirates and their victims. The men abducted are W. E. Hargrave, A. D. Blue, F. L. Pears and Charles Johnson.

### May Spread Tax Payment

Proposed Bill Would Further Relieve Debtors In Alberta

Edmonton, Alberta.—Designed to further relieve Alberta debtors by spreading payment of tax arrears over a six-year period, a bill will be introduced in the Alberta legislature shortly. The bill provides for the consolidation of payment of all instalments of certain local taxes.

The Alberta bill provides that when a taxpayer is in arrears for more than one year in respect of local taxes due the municipality, or for school taxes, he may enter into a consolidation agreement whereby the arrears would be paid by instalments over a period of six years.

## Canadian Bond Sales Suspended On The London Stock Exchange

### Fire In Dublin

Blaze Believed By Authorities To Be Of Incendiary Origin

Dublin, Irish Free State.—Fire, believed by authorities to be of incendiary origin, swept Connolly House, headquarters of the Communist Irish revolutionary workers group, and a block of buildings nearby in Bachelor's Walk.

First estimate said the damage might be enormous. Several stores and other adjoining properties were badly burned.

The blaze in Bachelor's Walk, which runs off O'Connell street by O'Connell bridge, was under control at midnight.

Many persons were injured in fighting at Connolly House, which is about 100 yards from Bachelor's Walk. Several hundred men stormed the Communist headquarters. They threw stones and broke windows, forced their way through the entrance and seized a red flag, pamphlets and furniture which they threw into the street.

The flag and the pamphlets were burned in a demonstration outside the building.

Police repeatedly charged into the crowds, but the disturbance lasted long past midnight.

Connolly House was attacked by hundreds of young men Sunday and Monday nights in the course of Communist meetings.

Thousands of people watched firemen fighting tonight's blaze, which was said to be one of the biggest and most dangerous Dublin ever experienced.

### Assist Horse Breeders

Policy Of Government In This Connection To Be Continued

Ottawa, Ont.—The policy of providing assistance to horse breeders' clubs in the prairie provinces is to be continued this year with adjustments to the advantage of the breeders, it was announced by Hon. Robert Weir, Minister of Agriculture.

The date of application is brought forward to June 1, and a promoter to whom the clubs and breeders should apply for information has been appointed in each of the prairie provinces.

The promoters appointed are: Carl Roberts, Osborne, Man.; J. W. Durne, Calgary, Alberta; Lt.-Col. H. W. Arnold, Saskatoon, for North Saskatchewan; and Dr. Charles Head, Regina, for South Saskatchewan.

### Favors the Dole

Direct Relief The Most Economical Plan, Says Senator

Ottawa, Ont.—Cost of providing work had been found to be out of all proportion to the cost of direct relief, R. Hon. Arthur Meighen, government leader in the senate, told the members of the Upper Chamber. The relief measure recently passed by the Commons was under review.

Public buildings, Senator Meighen said, had been erected to meet present and future needs. No feasible means of giving work to the extent of the present unemployment had been devised. The measure was passed without amendment.

London, Eng.—Dealings in Canadian bonds were suspended on the stock exchange, allegedly because of the proposed imposition of a five per cent. tax on interest payable by Canadian debtors to non-residents of Canada.

The embargo applies to all Canadian government, provincial and municipal bonds and stocks and shares of electrical and other industrial undertakings.

The suspension of dealings included railways, allegedly because of uncertainty regarding the proposed tax on dividends which was taken to apply to a large number of securities held by British investors in and on the Canadian stock market.

Leading exchange firms have been making strong efforts to persuade the Canadian government to abandon the new tax proposal, which is regarded here as unfair to British investors and until the position is clarified there will be no "making quotations" for such securities on the stock exchange.

The question requiring clarification, it is held here, is whether the British holders of bonds affected by tax would be able to deduct the amount payable in Canada from the income tax they have to pay in this country.

Ottawa, Ont.—The five per cent. tax on the interest payable on Canadian bonds by non-residents of Canada, as proposed in the budget, will not apply to any bonds, public or private, on which the interest is payable in a currency other than Canadian. Hon. E. N. Rhodes, Minister of Finance, made this announcement in the course of a statement given to the House of Commons to clear up misunderstandings that had arisen over the operation of this tax.

### Old Age Pensions

Alberta Will Not Relieve Municipalities From Paying Share Of Cost

Calgary, Alberta.—There will be no relief to municipalities regarding old age pension payments, Premier J. E. Brownlee, of Alberta, has formed Mayor Andy Davidson, of Calgary, who asked the government to relieve the city of the 10 per cent. payment of the pensions.

Mayor Davidson took the stand the municipalities should be relieved of their share in the pension costs now that the Dominion Government had assumed 75 per cent. of the cost. Having the provincial governments to pay only 15 per cent. He thought the provincial government should take over the municipalities' 10 per cent. share.

### Appointment Confirmed

Colonel Taylor, Manitoba Leader Of Conservatives, Receives Judgeship

Ottawa, Ont.—Appointment of Col. F. G. Taylor, for many years Conservative leader in Manitoba, as a judge in the court of king's bench in that province, was officially confirmed with the signing of the order-in-council by the Governor-General.

The appointment is to the vacancy created by the resignation of Mr. Justice A. C. Galt, which was recently received. Mr. Justice Galt, who just celebrated his 80th birthday resigned because of ill-health.

## Plan To Convene A World Economic Conference In The Near Future

London, Eng.—Aspects of a "new deal" for the world became evident here in conferences between Prime Minister Ramsay MacDonald and Norman H. Davis, United States ambassador-at-large.

They have as their objective convening a world economic conference as soon as possible and breaking the stranglehold which is suffocating world trade.

Both agreed the sooner the conference is held, the better. They proceeded with a preliminary exchange of views, the first of which was a decision that only six weeks' notice need be given the participating nations, instead of three months, making the beginning of the conference possible for late in May.

Their talks were confined to the economic conference. Disarmament and debts were not discussed.

Mr. Davis said the conference does not depend on settlement of either debts or disarmament, and he would not discuss the British debt payment due the United States on June 15. He intimated, however, that the new congress was largely elected on the understanding that there would be no cancellation, reduction or postponement of the war debts.

He is proceeding on the assumption the economic conference will be held in London, and does not know whether a preliminary British mission, possibly headed by Mr. MacDonald, will go Washington.

**LOCAL AND GENERAL**

Mrs. Robert Evans was a visitor in Calgary during the week.

Mrs. A. G. Bowling and daughter have returned to town after living in Calgary for several months.

Mr. and Mrs. Cologrosso gave a party to a number of friends on March 31, it being the third anniversary of their wedding.

Dan McIsaac volunteered to give us a little information on bagpipes. They are made in Dundee, and run fairly high in cost. The players are very scarce, and in this district he named Allan Penman, Hillcrest; Neil Fleming, Coleman, and himself. Coleman once had a pipe band, but the pipers went to other other fields of labor. Jimmy Taylor corroborates the statement that the best pipes are made by Forbes of Dundee.

M. Rae, salesman for Swift Canadian Co., again calls attention to the annual Easter campaign for increased sales of his company's products. This is the third campaign which Mr. Rae has been active in the towns of the Crow's Nest Pass, the dealers in which he calls on weekly. They offer a tempting line of this company's goods, as reference to their various advertisements will indicate.

**Orchestral Concert Here On April 19**

J. F. Upton of Blairmore has arranged for Blairmore Concert Orchestra and Hillcrest String Orchestra to give a concert in the Opera house on Wed. April 19.

These orchestras will take part in the musical festival this month. They have earned leading honors in district festivals. Several young players from Coleman are members of Blairmore orchestra.

The admission is 40c for adults and 20c for children.

**Son Killed in Belgium**

S. Bettingers received a cablegram on April 3 that his son, aged 35 years, married, had been killed in a motor cycle accident. He was riding behind the driver, and was thrown against a pole with such force that he died almost instantly. His father has lived in Coleman for several years.

**MISCELLANEOUS**

Pay-day dance, Sat., April 8 in Italian hall. Arcadians orchestra.

Bellevue football club is scheduled to play here against Coleman on Saturday, April 15. Admission by tag, 25c. Turn out for a keen game.

New spring models and new low prices in ladies, gents and child ren's footwear.—F. M. Thompson Co., Blairmore.

Road improvements in various parts of the town are being made as unemployment relief work. The public works department of the provincial government is also carrying on relief work on the highway west of Coleman, with C. L. Dodge in charge.

Frank Graham, sr., is a busy man around the garden, and is planning on planting some new varieties of shrubs. Frank has the distinction of being the first down at his store every morning, winter and summer, and has two or three hours work done when the rest of the fellows get around.

**LOCAL AND GENERAL**

Ladies: Smart spring coats or spring suits in wool or wool knit.—F. M. Thompson Co., Blairmore.

Remember this is the last week of Coleman Hardware Co.'s offer for free varnish or enamel. Saturday, April 8 is the concluding day of the free offer.

Important!—All unsold tickets and counterfoils for the electric bridge table must be returned to The Journal office not later than Saturday, April 15. The draw will be made following the whist drive in St. Alban's hall on Easter Monday, for which a door prize will be given in addition to six fine prizes for the whist drive, which are on display in Rushton's store window. The interior of the hall has been thoroughly renovated by George Graham and his helpers, making it pleasing and attractive.

Mayor Fattinson, Dave Gillespie and H. T. Halliwell were appointed as a committee by a Citizens League sports committee to obtain information and estimates on laying out a running track at the sports ground. By circling the football and baseball fields a quarter mile track could be laid out. The amount of levelling required is not very heavy, and it has been suggested that much of the surface clearing of stones be done by voluntary labor and thereby help in providing a track at low cost. To make a good running surface, shale would probably be used, which can be obtained from nearby deposits.

Ladies: Be sure and see the new shipment of very smart hats.—F. M. Thompson Co., Blairmore.

**ANNOUNCEMENT**

The L. O. B. A. will hold their annual sale of work on April 8th, in the K. of P. hall. Tea will be served from 3 to 6 p.m.

**Tenders Wanted**

Tenders required for school supplies for term 1933-34. For samples and quantities apply to James Ford, secretary, Coleman School District. Prices to be on goods f.o.b. Coleman.

**ANNOUNCEMENT**

Mr. Melville Anderson, of Anderson & McLean, sight specialists, Calgary, announces his next visit to G. R. Powell's, Coleman, on

Tuesday, April 25th.

20 years' experience and regular visits assure you of satisfaction in all optical work.

**ANNOUNCEMENT**

Dr. A. E. Shore, of Drs. Gunn, Hackney & Shore, Calgary, will be at the office of Dr. R. F. Stewart, Blairmore.

Anyone wishing to consult him with regard to eye, ear, nose or throat or to be fitted with glasses, please make appointment with Dr. Stewart. Watch this paper for announcement of date.
